ABOUT

Hi, I'm Krissy! I'm a full stack web developer who is inspired by my background in SaaS marketing, event coordinating, and client management.

FEATURED PROJECTS

MYBLENDOLOGY
www.myblendology.com | August 2018

myBlendology is a web application comprised of a PERN stack (Postgres, Express, React, & NodeJS) that allows you to create diffuser essential oil blends based off of a user's choice of mood.

SLOPEY SECONDS
www.slopeyseconds.com | April 2018

Slopey Seconds is a Javascript web application that combines multiple APIs (Google Maps, Powder Project, Open Weather, and EmailJS) to search for all ski / snowboarding trails in the US. Users can rate, review, and retrieve trail knowledge (elevation, length, etc.) The site also determines weather for the search in question.
